SKILLS SUMMARY

- **Languages:** C++(Proficient), Python(Decent), JavaScript(Good), C(Decent), TypeScript(Good)
- **Frameworks:** HTML and CSS(Proficient), Bootstrap(Good), Node.js(Good), React.js(Good), Express.js(Good)
- **Databases:** MySQL(Proficient), MongoDB(Decent)
- **Tools/Platforms:** Git, GitHub, VS Code, SQL Server Management Studio 22, Android Studio
- **Soft Skills:** Leadership, Problem-Solving Skills, Team Player, Communication, Project Management, Adaptability

EDUCATION

- **SRM University** Andhra Pradesh, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.6 *August 2024 - May 2028**
Favorite Courses: Object Oriented Programming, Data Structures, Analysis Of Algorithms, MERN Full Stack
- **NRI Institution** Tenali, Guntur
Intermediate; Percentage: 94% *April 2022 - March 2024*
Favorite Courses: Physics, Chemistry, Mathematics, Computer Science
- **Adarsh Public School** chenchupeta, Tenali
Matriculation; Percentage: 93% *April 2021 - March 2022*

EXPERIENCE

- **APSCHE - SmartBridge** Remote
Artificial Intelligence and Machine learning Intern
 - **Project Overview:** Developed SmartLender, an end-to-end machine learning-based loan approval prediction platform. The project performs data preprocessing, exploratory analysis, model training, and predicts loan eligibility through a deployed web application, providing quick and data-driven loan approval decisions. The application is made available for Android and Web platforms.
- **Hackathon: MSME IDEA Hackathon 6.0** Remote
Student Entrepreneur — Founder, SkyDrop AI *July 2026*
 - **About:** Participated in Startup ideation proposal for 15 lakhs of initial investment and project incubation support with a team of 2 people.
 - **Project Overview - SkyDrop AI:** Developed CAD and DCC prototype of our Autonomous AI Drone Model that works with High-Speed, Long-Range, Safe, and Weather-Resilient Logistics for the Future of Smart Cities.
 - **Tech stacks used:** The project was developed using AutoDesk Fusion 360(CAD), Blender(DCC and Rendering)
 - **Documentation Link:** [Drive.Nayak-D/SkyDrop AI](#)

PROJECTS

- **PlastiCycle – Smart Plastic Collection And Rewarding App:** Developed a mobile application to facilitate plastic waste collection using location-based services. Implemented a real-time house tracking system where users can indicate pickups through the app. Integrated a reward mechanism that provides monetary incentives based on collected plastic. Tech: HTML, CSS, JavaScript, Bootstrap, MySQL, PHP
- **HeartBeat – Shared Moments App:** A high-fidelity mobile app designed for the people to feel closer despite distance. It unifies real-time games, collaborative music listening, and seamless chat, voice, and video—call all in one place. Tech: Android Studio, Android SDK Widgets: AppBar, Navigator, Fragments
- **Hospital Management System:** A desktop-based Hospital Management System developed using C#(.NET WinForms) and SQL Server Management Studio. This application helps hospitals manage patient records, medical data, and administrative tasks efficiently. Tech: C#, .NET WinForms, SQL Server

ACHIEVEMENTS

- **NCFE Financial Education :** Successfully completed the NCFE's Financial Education Certifications, developing a strong understanding of personal finance, budgeting, savings, banking, digital payments, financial planning, investments, insurance, and responsible financial decision-making. Strengthened financial literacy skills for effective monetary management and informed financial choices.
- **Excellence in Academics, Competitions And Skill Programs:** Earned 35+ achievements including certifications, medals, and trophies, along with the Top Merit Candidate Award. Always An Active participant in sports, drawing, debates, building teamwork, creativity. Achievements ● ●
- **Shortlisted in Hackathon: CODE FOR CONNECTION And MSME IDEA HACKTHON 6.0:** Participated in the Code for Connection Hackathon and developed HeartBeat an application for long distance shared moments. The project was shortlisted among the Top 15 teams out of more than 250 participating teams Also participated in MSME Idea Hackathon 6.0 by presenting an innovative AI based solution focused on solving real world problem organized by Ministry of Micro, Small and Medium Enterprises MSME Government of India.

CERTIFICATIONS

- Google Cloud Gen AI And Prompt Design in Vertex AI Certifications
- MongoDB Associate Developer Certification
- Python Coder And Community Member Certifications by Kaggle
- Certificate for Development in Foundational C# by Microsoft
- Legacy Responsive Web Design V8 Certification by FreeCodeCamp
